SUPERIOR STAMP & COIN

Very Rare Medieval Hungarian Silver Coins With Hebrew Letters Offered By Superior

Throughout history, Judaic coins have preserved physical proof of the triumph of adversity....from the overstriking of Roman coins by Simon Bar Kochba during the Second Revolt against Rome (132-135 CE) to the production of Israel's first crude coins in a Tel Aviv cutlery factory early in 1948 while the newly proclaimed country was fighting off the mighty Arab armies. Bar Kokhba's first name appears on his coins, and we know that Alfred Salzman struck Israel's first coins from dies engraved by Moshe Muro.

Other Judaic coin issuers have left only tantalizing hints as to their identities. The appearance on the numismatic market place of a group of exceedingly rare small silver coins struck in medieval Hungray, are historic pieces of evidence in a mysterious numismatic puzzle. In the 13th century, Hungarian state policy permitted the mint to be farmed out. Between the years 1222 and 1234 the clergy and nobility protested vehemently against the role of Jewish mint masters, and the matter was not settled until 1239, when Pope Gregory IX decided in favor of the Jewish interests. This tolerance continued until 1279, when the pressures grew more extreme and Jews were finally excluded.

In this brief 40 year period, small "obols" were issued by unknown Jewish mint masters under Bela IV (1235-1270) and Stephan V (1270-1272). Small quantities of three different issues, which were originally part of the Niklovits Collection in the National Hungarian Museum, (acquired around the turn of the Century), through a special deacquisition, are being offered individually and in sets by Superior Stamp and Coin Company. Ira Goldberg, who negotiated for this historic group, indicates that "for all pratical purposes these are the only Medieval Jewish coins that can be bought, and once these are sold it is extremely unlikely that a similar opportunity will ever occur."

"Aleph" type, silver obol, under Stephan V, AD 1270-1272 Obv: Head of the King to left. Inscription around; +MONETA UNGARIE. Rev: Large aleph א between two birds.

Bibliography: Huszar, L. MUENZKATALOG UNGARN, Munich 1979, No. 357; Rethy, L. CORPUS NUMMORUM HUNGARIE, Vol. I, Budapest 1898. No. 297

"Large tsadi" type, silver obol, under Bela IV, AD 1235-1270 Obv: Bastion tower on a hill between two lilies (fleur-de-lis) Rev: Large tsadi צ surrounded by wreath.

Bibliography: Huszar, No. 306; Rethy, CNH, N. 241

"Small tsadi" type, silver obol, under Bela IV, AD 1235-1270 Obv: Bust of the King, inscription, + REX.BELA, small tsadi צ. Rev: Eagle with spread wings.

Bibliography: Huszar, No. 313; Rethy, CNH, No. 246

The three coins available are all silver "obols" measuring about 11 millimeters as follows. **Aleph type:** Obverse with the head of Stephan facing left, inscribed MONETA UNGARIE (Hungarian Money); reverse with a large Hebrew letter "Aleph" surrounded by two birds. **Large Tsadi type:** Struck under Bela IV, obverse features a castle tower on a hill between two lilies (fleur-de-lis); a large Hebrew letter "Tsadi" appears within a wreath on the reverse. **Small Tsadi type:** Also issued during the reign of Bela IV, obverse portrays a bust of the king with his name REX BELA; a small Hebrew letter "Tsadi" is shown on the reverse along with an eagle with spread wings.

These Medieval Jewish silver coins are in Choice Very Fine condition and exhibit attractive natural antique cabinet toning.

Scholar Daniel Friedenberg aptly summed up: "It is intriguing to think of these unknown men, dead for over 700 years, whose sole stamp in history is a single Hebrew letter."

NEW TREND in Examining Rare Coins

If you have recently attended rare coin auction sales, you may have observed that the latest trend in examining rare coins is in a darkly lit room and a powerful single source of lighting. The purpose behind this type of viewing is rather simple. By eliminiating outside light sources and allowing a single powerful light source to provide the lighting, we find that glare is no longer a problem and the coin can be maneuvered to provide a more controlled vision.

The interesting feature here is that this manner of viewing coins is being utilized by several of the major grading laboratories and thus by utilizing the same principle one is more likely to be able to examine a coin and better predict how the coin will be graded if sent in for a certificate.

We are pleased to announce that Superior Stamp & Coin is distributing both the light source and the magnifier which are being used to grade coins by some of these grading laboratories. It has been no secret within the trade that our line of halogen lights and magnifiers have been great sellers. We are pleased to provide this listing of our more popular products. We have placed an asterisk beside the two items being used by these laboratories. All represent great quality and will serve you for many years.

Byblos, founded c. 2700 BCE, "is possibly the oldest continuously inhabited town in the world," according to the Encyclopedia Britannica. The name of this ancient seaport (now known as Jubayi), located just to the north of today's embattled Beirut, has been immortalized twice in our language... first as papyrus ("byblinos") from the fact that this early writing material traveled from its source in Egypt to the Aegean world through the port of Byblos... and then as the Bible, a word translated by Greek-speaking Jews sometime before the mid-second century BCE from the Hebrew "HaSefarim" (meaning "The Books"). In addition, Byblos was the source for our words "paper" and "bibliography."

In the tenth century BCE, when the Kingdom of Israel reached the height of its power under King David, it virtually surrounded Byblos (then known as Gebal): "For he had dominion over all the region west of the Euphrates from Tiphsah to Gaza, over all the kings west of the Euphrates" (I Kings 4:24).

Another Byblos-Biblical connection was discovered during excavations conducted starting in the early 1920's, that has revealed inscriptions dating from the end of the third and the beginning of the second millenium BCE written in the form of Old Canaanite, a language which is in the direct line of ancestry of Biblical Hebrew Similarly the Phoenician inscriptions on the ancient coins of Byblos use an alphabet that is virtually indentical with that found on ancient Judaean coins.

The silver Double Shekel issued around 350 BCE carries the inscription "Azbaal Melek Gebal" (Azbaal, King of Gebals surrounding a masterpiece of ancient numismatic art-a lion pouncing on a bull. Evidently, lions were familiar to the residents of Byblos, as confirmed by this passage from the Song of Solomon: "Come with me from Lebanon, my spouse... look from the top of Amana, from the top of Shenir and Hermon, from the lion's dens, from the mountains of the leopards" (Song 4:8).

The obverse of these 2000+ year old coins alludes to the important seaport at Byblos, where "The ancients of Gebal and the wise men thereof were... calkers; all the ships of the sea with their mariners were (there) to occupy thy merchandise" (Ezekial 27:9). Appropriately, they have portrayed a war galley with a lion's head figurehead; within are three hoplites (soldiers wearing helmets and carrying shields). Below waves is a mythological winged hippocamp, with the head and fore-quarters of a horse ending in a fish's tale; above the back of the hippocamp are two ancient Phoenician/Hebrew letters "AZ", abbreviating the name of the king.

Many collectors of Bible reference coins and ancient masterpieces of numismatic art will undoubtedly want to acquire one of these exceptional quality Extremely Fine silver Double Shekels of Byblos (c. 350 BCE), especially at the low price offered by Superior (well below recent auction records which range up to $3000). However, only a tiny hoard is available, which will be sold on a coin by coin basis. The coins are virtually as struck, showing little actual wear. We have priced them individually based on quality of the strike and lustre.

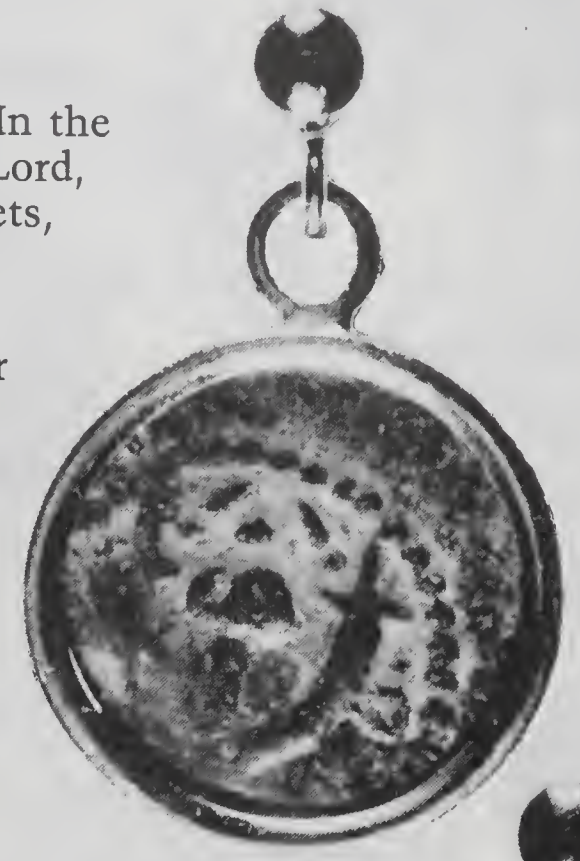
GENUINE 2000 YEAR OLD "BIBLE COINS"

Have been transformed into unique pieces of jewelry that will bring the wearer inspiration...and compliment!

Long before there were coins, gold jewelry was used as money. In the time of Moses: "We have therefore brought an obligation for the Lord, what every man hath gotten, of jewels of gold, chains, and bracelets, rings, earrings, and tablets, to make an atonement for our souls" (Numbers 31:50).

About one thousand years after Moses, the Judaeans struck their first coins - small bronzes called "prutahs," "leptons," or "mites." The Maccabean rulers John Hyrcanus (135-104 BC) and Alexander Jannaeus (103-76 BC), issued coins with the design of a double-cornucopiae (horns-of-plenty) and an ancient Hebrew inscription indicating that they were authorized by "the High Priest and community of the Jews." This design continued to be used until the fall of the Maccabean dynasty in 37 BC; they were still in general circulation during the lifetime of Jesus.

These Maccabean bronzes are likely candidates as the famous "Widow's Mites": "And Jesus sat over against the treasury, and beheld how many people cast money into the treasury; and many that were rich cast in much. And there came a certain poor widow, and she threw in two mites... And he called unto him his disciples, and saith onto them... that this poor widow hath cast more in, than all they which have cast into the treasury." (Mark 12:41-43).



(Photo enlarged to show detail)

Superior Stamp and Coin Company, one of America's major dealers in ancient Biblical coins, has chosen genuine 2000 year old Maccabean bronze mites with legible inscriptions and designs, and natural patinas, to be custom mounted in glittering 14 karat gold frames (that precisely fit each coin), attached to matching 14 karat gold studs so that they can be worn as unique pierced earrings. Indeed, each pair is unique since every handstruck ancient coin is a somewhat different shape, and are minted from a multitude of dies.

Ancient coin jewelry is one of the most popular fashion trends today, with leading jewelers selling pieces for thousands of dollars... but none can have greater significance than our Bible Coin gold earrings which we are pleased to offer at the remarkably affordable price of only $99.50 (about what you would expect to pay for the coins alone!). Struck for ancient kings... these are truly "fit for a queen" today. This is a meaningful acquisition that will be treasured for a lifetime!

Bible Coin Gold Earrings $99.50

STRANGE BUT TRUE FACTS

- ★ It is strange that a pagen object appears as one of the most popular symbols used on ancient Maccabean coins. In Greek mythology, it is related how the horn of the river god Achelous was wrenched off by Hercules, and became a horn-of-plenty (cornucopia).
- ★ It is strange that the archaic form of ancient Hebrew used on all ancient Judaean coins, probably could not be read by most of the people... but could only be understood by the priests!

SMALL HOARD OF RARE HALF PENNY TOKENS LOCATED

Some years ago we offered a rare 1815 half penny token which was discovered in a collection of early coinage purchased in Maine. The hoard consisted of some 200 pieces and these were sold by us several years ago at $27.50 each. Included with each piece was a copy of the documentation which accounts for the original discovery. The documentation cites that some 75 pounds of these tokens were originally discovered and sold to an attorney F.C. Saunders of Bedford Quebec.

It appears that in the early 1800's in Canada, a shortage of hard currency existed and tokens such as these were accepted for payment in amounts under 5c. They were also used as payment for postage. Today, tokens such as these are widely collected by numismatists and included with each token is a copy of a letter from the numismatist Renaud dated in July of 1927 where he is attempting to purchase the hoard from Saunders.

Saunders wrote to the famous numismatist Breton who advised that the tokens were acceptable for exchange although if the condition of the tokens was high grade, these would be worth a premium which he offered to purchase. The copy of this documment is also included with each token.

We have located just 50 of these mint state (slightly toned) copper tokens. We believe that these tokens should be sold at $37.50 although we will offer them at the last price they sold at for just $27.50 which includes copies of all documentation mentioned. Just 50 of these are available so we suggest a prompt phone call to reserve your order.

GIANT One Pound Silver Eagles

Actual Size

After receiving numerous requests for these beautiful pure silver one pound Silver Eagles, we are pleased to present these to you. They contain one once of pure silver, and the designs are exactly like the official government issue. The reverse of these coins indicates that the weight is 1 lb. instead of 1 oz., and the denomination is deleated. They portray a beautiful proof surface and are available in a very limited quantity. Perhaps the best part of the Eagle is the price which is just: **$149.50**

Mr. "S" — The Saga Continues

Back in our June 1989 issue of *MoneyTalks* we introduced you to Mr. "S", a man who's penchant for "SUPERB CONDITION" stamps earned him our love and respect. As we pointed out, his Estate approached us to handle the disposition of his collection. Guess what we said...

You obviously agree with our decision since your response to last month's selection of material has been overwhelming. This month's selection should turn your salivations into a feeding frenzy.

Some of the stamps are among the finest we have seen in years (check out #s 218 LL corner copy; #263, as large as an example as you could hope to find; #356, who could ask for anything more; and the list goes on and on..) others are just very elusive in nice condition (when was the last time you saw a C2 as nice as this one, or the $5.00 Treasury issue...).

We hope to present further selections in upcoming issues of *MoneyTalks*. If the response to last month's selection is any indication to this month's, to the early bird goes the worm...

Soviet Shuttle Cover

A Philatelic envelope has been prepared by Mezhdunarodnaya Kniga, the Soviet export agency, in cooperation with Glavkosmos, the Soviet space agency, to commemorate the first test flight for the space shuttle Buran. The covers were not aboard the shuttle itself, but were at the Baikonour space facility for the launch and recovery.

The beautiful red and blue multicolored printed cachet reads, ''Multipurpose Reusalble Cosmic Ship,'' and the rubber stamp shows a line drawing of the space shuttle and reads ''Experimental Flight 15.11.1988 Orbital Rocket 'Buran'.''

The postmarks on the Yuri Gagarin postage stamp are from the ''Baikonour Cosmodrome'' and are dated November 15, 1988. There are two postmarks, one for the launch and one for the successful landing at the space center.

The back of each cover has a rubber stamp, with the legend in Russian and English, ''Commemorative Cover Devoted to the Test Launching of 'Energia' Carrier Rocket and Space Shuttle Buran 15.11.88 Glavkosmos USSR and V/O Mezhdunarodnaya Kniga.'' Each cover is individually authenticated and signed by A. Ya. Belostotsky, General Director of Kniga, the official Soviet export agency.

The name sends tremors through the art world. One of the giants of 20th century art. The Michaelangelo of his day. Who can say enough about this great artist... Original art by Chagall is beyond the reach of all but a few ultrarich collectors. The best most of us can do is to aquire a print or lithograph of his work; and if it is hand signed, even that is prohibitive. We are pleased to be able to offer our readers the following 1967 United Nations Covers featuring the famous "Chagall" stained glass window at the U.N. Each of these covers are hand signed by Marc Chagall and is guaranteed absolutely genuine. This may be your only opportunity to aquire "an original" by the hand of the master.

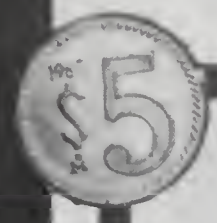
SUPERIOR BUYS TONS OF FOREIGN COINAGE FROM LOCAL SOUTHERN CALIFORNIA BUS COMPANY



RTD

June 30, 1989

Mr. Mark Goldberg
Superior Stamp & Coin Co., Inc.
9478 W Olympic Blvd.
Beverly Hills, CA 90212

Subject: 6-8902-S; Sale of Foreign Coins

Dear Mr. Goldberg:

On June 16, 1989, the District's General Manager accepted your offer for the purchase of [illegible]

We are passing on to our readers our good fortune in being awarded our bid to acquire literally tons of foreign coins which the good citizens of Southern California have dropped into the fare boxes of the thousands of busses that cruise this area. The successful bid took several trips for to complete the hauling and we want to move this massive group just as fast as possible. So let's get the price down and move it out. We took a sample look at one of these 50 pound bags and found a considerable amount of European coinage which has substantial face value. In addition we found very little copper coinage. There is a wide assortment of coinage from all over the world and we think that you will agree that these unsearched bags will at least provide you with some real enjoyment. Naturally we will not accept returns since we would never be able to know what was originally contained. We have decided to chop our price to a record low amount just to move them out.
